Note: For optimal results, consult a professional tailor to take these garment measurements.

1) Try on shorts at a Scout Shop; record BSA SKU\# below of style that fits best.
2) Measure current inseam length of shorts you try on and record below.
3) Indicate the new requested hemmed inseam below.
4) Subtract the difference between the current stock measurement (even if it is an unhemmed measurement) and the new requested hemmed measurement.
