

## Using Badge Magic 50106 “4 Rounds Patch Kit” to affix the Centennial World Crest Ring Emblem.

### Embroidered Centennial World Crest Ring Emblem

Remove the paper covering from the two rings identified as the 2” and 2.5” on the patch kit. (Leave the 1.5” ring covered for later use with a merit badge.)

Place the Centennial World Crest Ring emblem over the exposed adhesive. Use the center hole as a guide to align the emblem. Press it firmly onto the kit with your fingers.

Remove the emblem from the kit sheet. The adhesive is now on the back of the emblem. There will be some adhesive sticking out beyond the edges of the emblem. Use your fingers to gently tuck the extra adhesive onto the back of the emblem.

Place the emblem over the Centennial World Crest Ring emblem. When it is aligned to your satisfaction, press it down firmly onto the uniform with your thumbs. It is now ready to wear.

Complete instructions for badge attachment and removal can be found at [www.BadgeMagic.com](http://www.BadgeMagic.com).
